

Boat-Support-Trestle

Hösl
Hebetechnik

HÖSL-**Support-Trestles** belongs today to the equipment of every modern workshop and showroom.

Special features of our support-trestles:

- + nearly indestructible
- + very robust
- + very good handmade german product
- + many sided usable
- + proofed safety
- + individual adjustable height
- + zinced plate and stamp

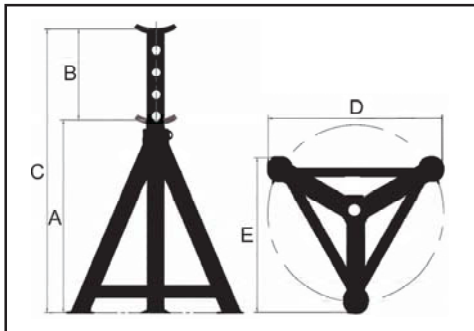

On this trestles your boat will be supported safe.

Especially in the exhibition area this product looks very good.

A very big advantage offers the adjustable height through the thread; herewith the person can get the boat in a straight line.

To avoid damages of the boat the plate of the trestle is covered with a rubber mat.
