

Modular Boatstage

This modular Boatstage is an indispensable component of each exhibition and/or exhibition booth. With this modular Boatstage you can examine completely comfortably and surely each boat.

The large advantages these boatstage are:

- arbitrarily extendable and widenable
- to use also as landing or stage
- on smallest area stow awayable
- fast assembly, simply to divide, simple space-saving transport
- different lining (wood, plastic, aluminum serrated sheet)
- with and without railings available
- different heights available
- various RAL colors when desired
- railing from stainless steel

Typ	Height A mm	Width B mm	Length L mm	Weight kg	Price € on request
